

## Collected Works of Norbert Elias: Essays and chapters not previously published in English

The great majority of the items in the following list were translated from German for the Collected Works by Edmund Jephcott. A few items, marked with an asterisk, have not previously been published in any language.

Besides those listed here, many other essays – especially in volumes 14, 15 and 16 – although previously published, were originally scattered across many journals, some of them obscure or now defunct, so that they are not easy to locate other than in the Collected Works.
